

Changing the Design (Theme)

Tired of your theme? No problem. From your *Dashboard* screen, click on the *Design* tab and head back in to select a new one.

Scroll down and click on any of the themes to update your blog. To see what your new theme looks like on your site, click on the *Visit Site* link (top of your blog, next to your blog name). Most themes are customizable, making it possible for you to change color themes, upload an original graphic in the header, etc. All themes have a selection of widgets that you can drag and drop onto your sidebar(s).

Changing Your Blog's Tagline

If you have selected a theme that includes a tagline, you've probably noticed that the default tagline is *"Just another Edublogs.org weblog."* To edit the tagline, return to your *Dashboard* and click on the *Settings* tab. Scroll down to the *Tagline* window and add your own tagline. Click on the *Save Changes* button.

Note: Not all themes include a tagline.
